Deadline for manuscript  
submissions:

**30 September 2022**

### Message from the Guest Editors

Dear Colleagues,

We are delighted to announce a call for submissions to this Special Issue of the International Journal of Molecular Sciences on the topic of Frontiers in Cell Death and Differentiation. Despite its late onset as a biomedical research area, cell death is now a field in continuous development. The cell death entities are primarily categorized into programmed cell death (PCD) or non-PCD (necrosis) based on their signal dependency. Dissecting the molecular mechanisms of both positive and negative regulation of PCD is the mainstay to develop treatments for several diseases, including cancer and neurodegeneration.

A more irregular form of death is typically described as differentiation (as in the case of keratinocytes) and exemplifies how cell death is not only essential for the renewal of tissues, but also for direct protection from the outside world and pathogens.

We encourage the submission of both original research articles and topical reviews tackling all aspects of cell death and differentiation, as well as addressing what lies ahead regarding technologies and methods.

an Open Access Journal by MDPI

## Editor-in-Chief

### Prof. Dr. Maurizio Battino

Department of  
Odontostomatologic and  
Specialized Clinical Sciences,  
Sez-Biochimica, Faculty of  
Medicine, Università Politecnica  
delle Marche, Via Ranieri 65,  
60100 Ancona, Italy

## Message from the Editor-in-Chief

The International Journal of Molecular Sciences (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, molecular biophysics, molecular medicine, and all aspects of molecular research in chemistry. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

## Author Benefits

**Open Access:**— free for readers, with article processing charges (APC) paid by authors or their institutions.

**High Visibility:** indexed within Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPus / SciFinder, and many other databases.

**Journal Rank:** JCR - Q1 (*Biochemistry & Molecular Biology*) / CiteScore - Q1 (*Inorganic Chemistry*)
